

Fundraising Status Report

AMICO received \$20,000 of \$25,000 requested from the Getty Grant program to hold focus groups of potential users at the VRA and CAA meetings in the winter. We held the meetings and reported to the Users and Uses committee. Funds are now expended and a final report will be submitted to the Getty soon. Results have been posted to the AMICO web site and are being taken into account in positioning AMICO marketing.

AMICO applied for \$ 278,100 from the National Endowment for the Humanities, Preservation and Access Program to develop Guidelines for Application of Art Documentation Standards in a two year project beginning May 2000. We will not hear about this until April 2000.

In summary, AMICO's experience to date is:
