

AMICO PERMISSION FORM

I grant permission to the Center for Creative Photography to reproduce and disseminate a selection of my photographs from the permanent collection in connection with the Art Museum Image Consortium (AMICO) database. The photographs will be copied by Center Staff on 35mm slide film, scanned at a resolution of 1350 ppi and submitted to the AMICO technical coordinators via FTP (file transfer platform).

The images will be accessible via electronic technologies for educational use only, to students, faculty, staff, and researchers at subscribing institutions. Full cataloging information will accompany each photograph. Copyright holder contact information or a direct link to a copyright holder web page will be attached to each image on the site and can be accessed by clicking on a *Rights* icon.

I would like my copyright statement and contact information to appear when the AMICO *Rights* icon is activated. Please list the information as cited below:

I do not want my address to appear when the AMICO *Rights* icon is activated. Requests for use of my photographs that are not covered by the *AMICO Educational Site License* should be channeled through the Center for Creative Photography. The Center's Rights and Reproductions Staff will forward reproduction requests to me.

CCP COLLECTION DATABASE PERMISSION FORM

I grant permission to the Center for Creative Photography to make scans of my photographs and link them to their photograph collection database in the form of low-resolution (72ppi) JPEG files. These image files will be used within the Center for the purposes of furthering the institution's collection management and preservation goals. In the future, the images will serve remote researchers by enhancing access to the Center's photograph collection database.
